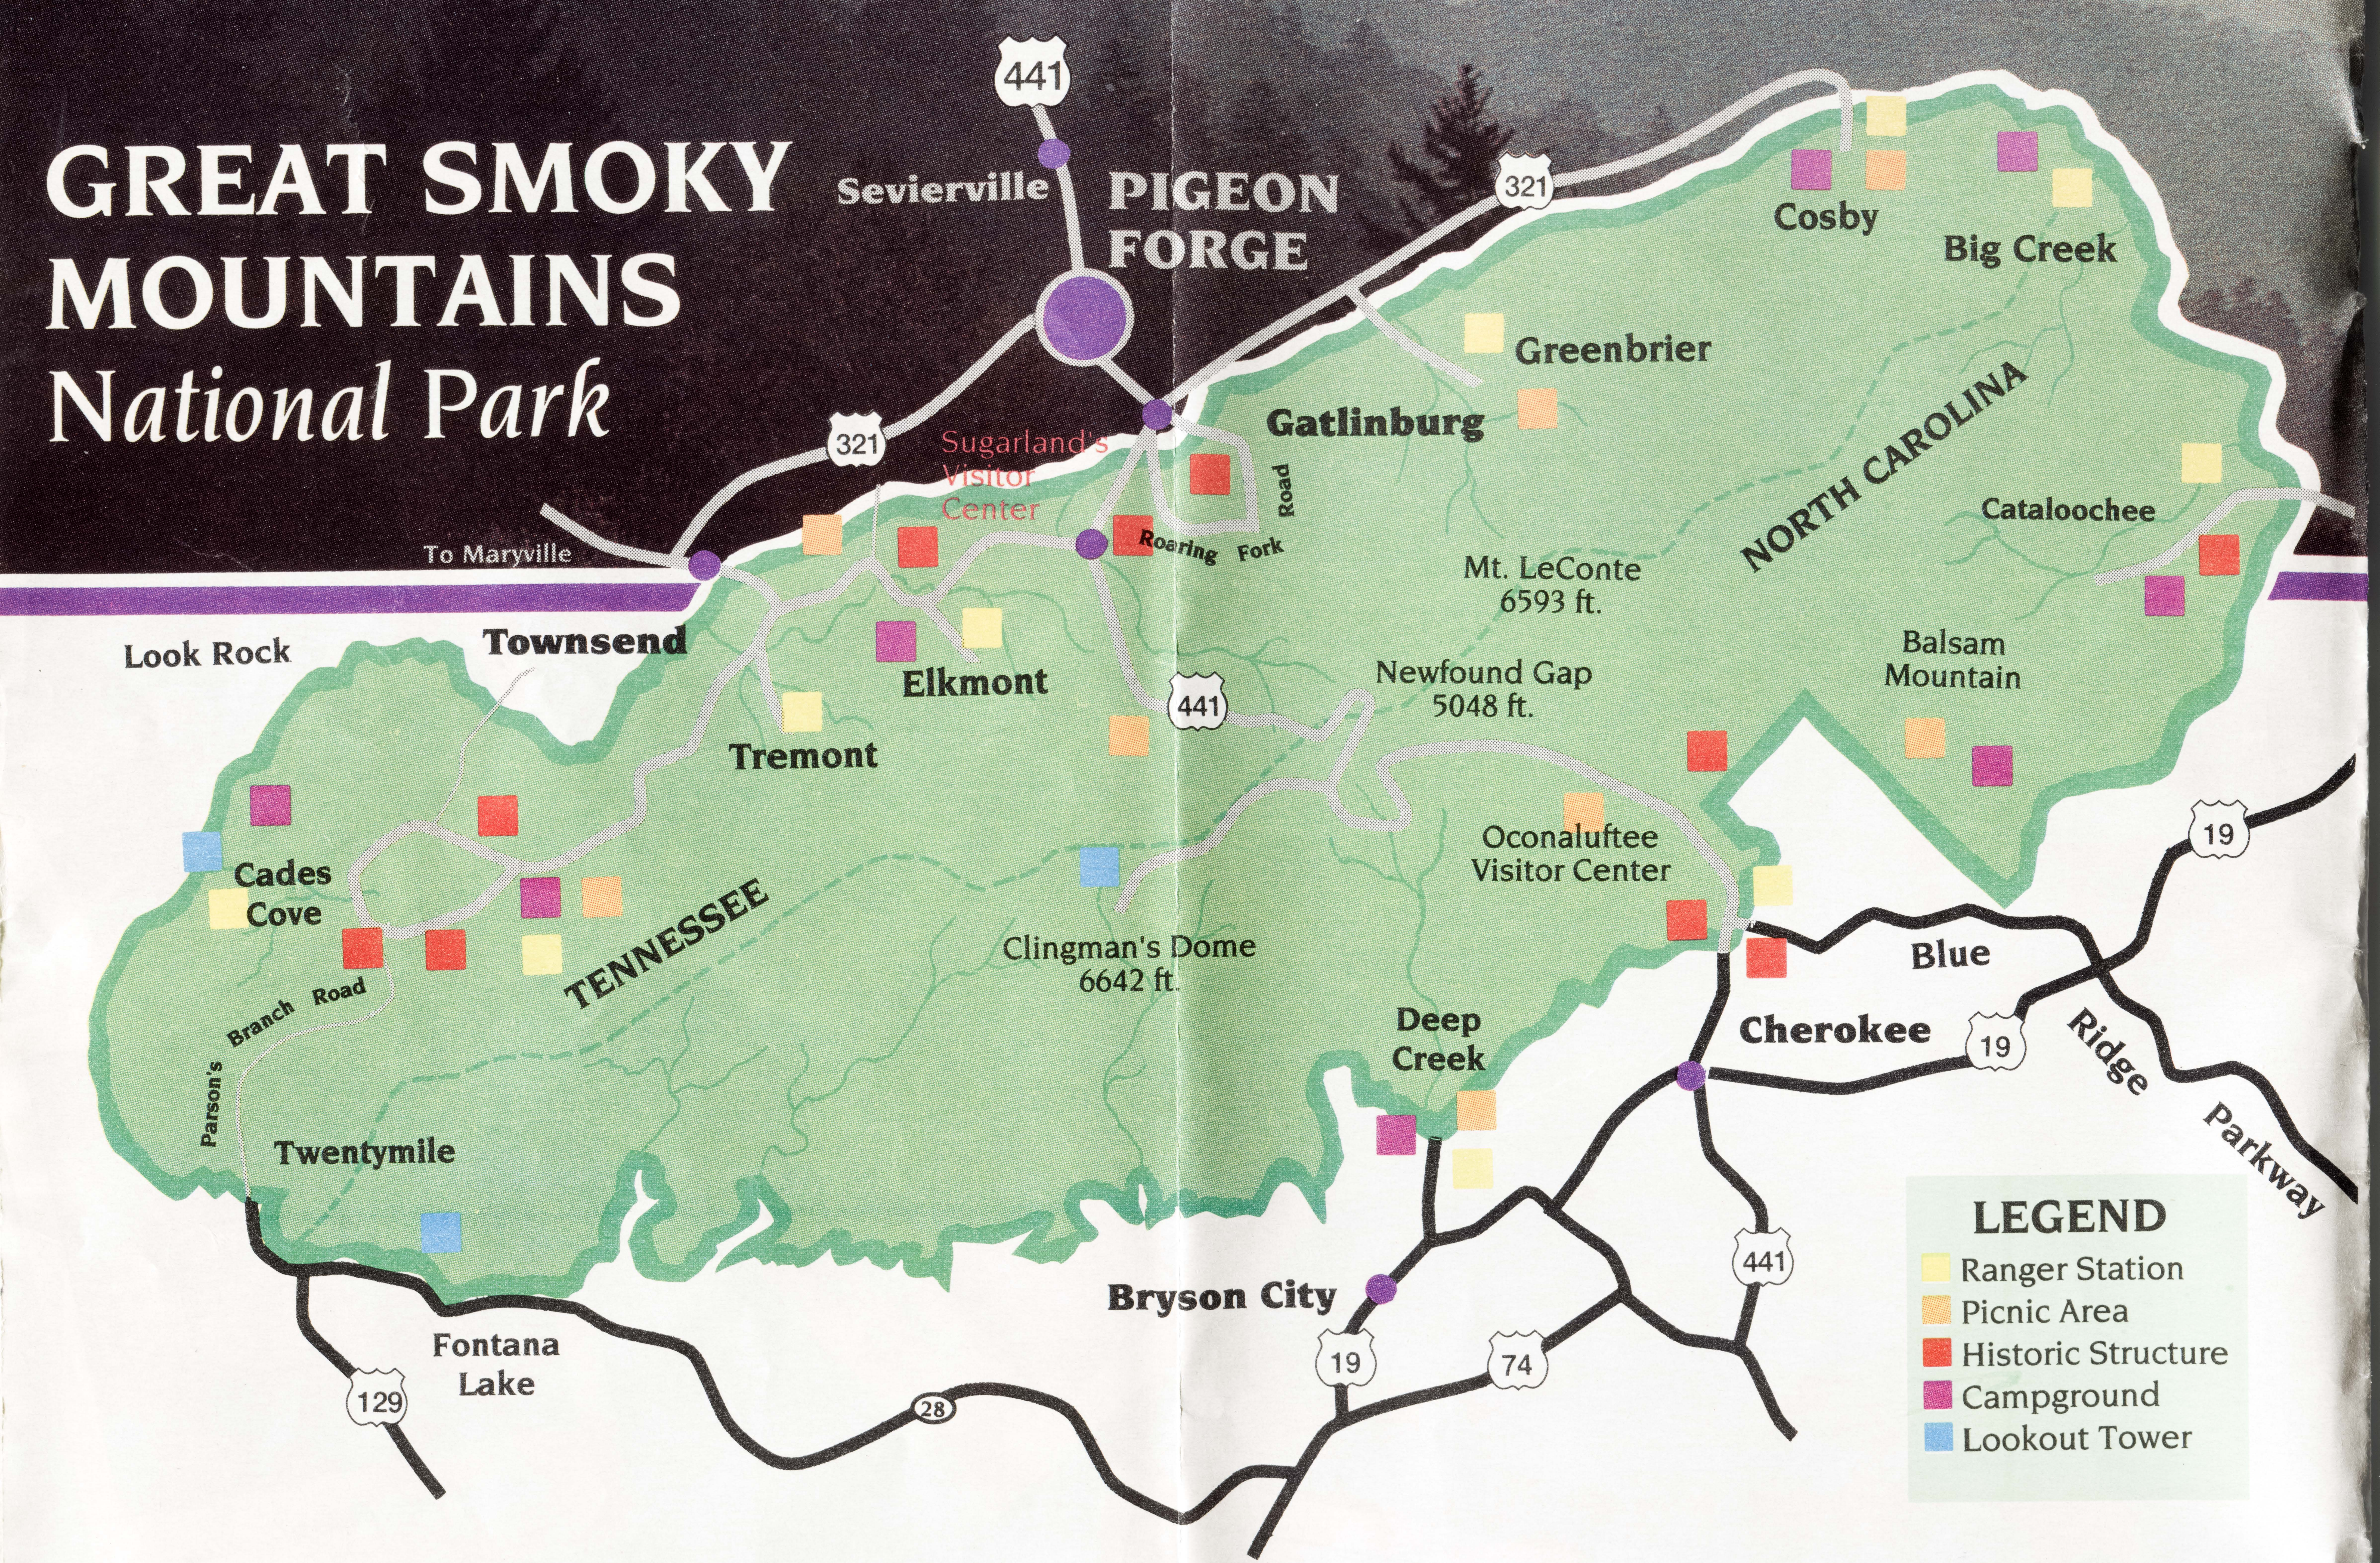
PIGEON FORGE

In The Smoky Mountains Of Tennessee

GREAT SMOKY MOUNTAINS
National Park



ENJOYING THE PARK — The park is a delightful mix of forest wildlands, and an outdoor museum of pioneer life. Try to experience both aspects by hiking and by visiting its restored structures.

TRAILS AND HIKING — Horse and foot trails wind along streams and through forests into the wild stillness of the Smokies. For "do-it-yourself" naturalists there are short, self-guiding nature trails. Pick up a leaflet at the start of each trail.

CAMPING — There are ten developed campgrounds in the park. Reservations are required from May 15 through October 31 at Cades Cove, Elkmont, and Smokemont. These campgrounds have water, fireplaces, tables, comfort stations, tent sites, and limited trailer space. No shelters are provided. There are no showers or hook-ups for trailers.

ACCOMMODATIONS AND SERVICES — LeConte Lodge, accessible only by trail, offers accommodations in the park from early April to November 1. Allow a half-day hike up a mountain trail to reach this secluded retreat. Reservations are necessary. Call or Write: LeConte Lodge, Gatlinburg, TN 37738. Rustic hotel accommodations and food service are provided at Wonderland Hotel, at Elkmont, mid-May - November. Saddle horses are available at Cades Cove, Smokemont, Dudley Creek, Cosby and Two Mile Branch near Gatlinburg, from about April 1 to October 31.

A WORD ABOUT BEARS — Bears are wild and potentially dangerous. If one approaches your car, stay inside with the windows closed. Feeding wildlife violates park regulations.

NATURALIST ACTIVITIES — Motor Nature Trails and Quiet Walkways are excellent ways of visiting the Park. Two of the most popular drives are the Cades Cove Loop and Roaring Fork Motor Nature Trail. Along major roads, look for Quiet Walkway signs; get out of your vehicle and experience nature without the crowds.
